Re: Revised cost of energy rate (DG 09 – 169)

Dear Ms. Howland,

Enclosed is the May 2010 COE reconciliation report. The current June 2009 energy charge is \$17.89/mlb. The rate in July 2010 is set at \$19.89/mlb. as a result of the adjustments required by and in accordance with DG 09-169, ORDER NO 25, 036. The new rate is expected to reduce the current deficit of \$33K to approximately \$9k by October 2010. An original and six (6) copies of the updated tariff page are enclosed.

If there are any questions please call me.

Yours Truly,

Mark E. Saltsman
Vice President
