**Re: DE 09-174, PSNH Petition for Declaratory Ruling re:
Penacook Lower Falls Pricing**

Dear Matthew and Steve:

Yesterday, PSNH filed with the Commission a "Stipulation of Facts", i.e., an agreed statement of those facts to which PSNH and Briar Hydro Associates ("Briar") can agree. The parties have also agreed that each may file separately its more complete spreadsheet analysis of the payments made to date under the 1982 Contract which is the subject of their dispute.

This letter covers Briar's separate filing, a seven-page spreadsheet dated 1/25/10 and entitled "Briar Hydro's Revised Analysis of PSNH Excess Payment Recovery Under 1982 Contract."

Please note that on December 18, 2009, PSNH and Briar both filed spreadsheets showing their respective initial accountings of the recovery by PSNH of "excess payments" it made to New Hampshire Hydro Associates (Briar's predecessor-in-interest) during the first eight years of the Contract, when NHHA received 10¢/kwh, one cent above the index price of 9¢/kwh.

The enclosed Briar spreadsheet is a revision of its 12/18/09 submission, which incorporates the more detailed monthly generation figures supplied by PSNH, and provides Briar's revised calculation of the recovery by PSNH of the \$1,488,685 in "excess" or front-end loaded payments made by PSNH during the first eight contract years.

Briar's enclosed analysis, based on the express pricing terms of Article 3, indicates that PSNH fully recovered its front-loaded payments (with interest at 17.62% annually) in July, 1996. By comparison, PSNH's 12/18/09 accounting indicates that PSNH fully recovered its front-loaded payments (with interest at the same 17.62% annually) in November, 2009. In either case, PSNH has fully recovered its initial front-end loaded payments, with interest.

As Briar noted at the pre-hearing conference on December 8, 2009, it is not seeking damages in this proceeding, but rather a resolution of the internally inconsistent price terms in the contract in a manner that is fair to both parties.

Respectfully submitted,

Howard M. Moffett
