Re: DE 10-078, Nexamp, Inc.'s Application for Class II Certification of its Nexamp PD Solar Aggregation pursuant to RSA 362-F

Dear Ms. Kosciak:

On April 5, 2010, Conservation Service Group (CSG) filed an application on behalf of Nexamp, Inc. requesting that the Commission grant approval of its Nexamp PD Solar Aggregation to produce Class II renewable energy certificates pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law. On April 29, 2010, Staff sent you an email requesting additional information to which you responded stating that, since CSG was no longer managing this and other Nexamp accounts, Nexamp requests that the Commission freeze the application such that Nexamp can pursue the application at a later time. In an email dated May 5, 2010, you asked Commission Staff to close the application until Nexamp finds a new aggregator for its facilities. Staff has not received a request to reopen this application.

The Commission considers your application withdrawn and has closed the above referenced docket without prejudice.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Debra A. Howland
