**Ref: DW 10-091
Public Hearing**

Rate Payer Testimony **and requests** follow:

I have been informed that an Anheuser-Busch's employee has stated recently that the company is planning to end its water contract with Pennichuck and drill into the aquifer themselves for their future water usage.

1.) I request that Anheuser-Busch be required to supply any and all information regarding the validity of the statement above.

2.) I request that the Commission make public a municipal water rate scenario that excludes Anheuser-Busch's from the rate base.

I have also been informed that Pennichuck has asserted that legal expenses incurred as part of Nashua's pursuit of ownership of the company would "not" be added to the rate base.

3.) I request that this information be confirmed or denied in writing.

Thanking you in advance.
