July 22, 2010

Dear PUC,

I understand that the PUC will be ruling on a request by PSNH to spend another 600 million dollars on their Merrimack coal burning plant in Bow. Rather than waste more money on a 50 year old, pollution belching coal plant, I wonder how many solar panels or windmills could be bought for 600 million dollars. Coal mines and coal generated air pollution kill people. It is time to shut down coal burning plants and to move on to clean, renewable electricity sources. I don't want another penny of my money thrown away on that filthy old plant in Bow.

Sincerely,

A handwritten signature in blue ink that reads "Russell Perkins".

Russell Perkins
