

**STATE OF NEW HAMPSHIRE**  
**BEFORE THE**  
**NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION**

**Docket No. DT 10-137**

**Northern New England Telephone Operations, LLC**  
**d/b/a FairPoint Communications-NNE**  
**Petition for Authority to Disconnect Global Naps, Inc.**

**REQUEST FOR EMERGENCY RELIEF**

Now Comes The Destek Networking Group (“Destek”), and respectfully petitions the New Hampshire Public Utilities Commission (“Commission”) for emergency relief in order to extend the date for shut-off of NH customers of Global Naps, Inc. In support of this Request Destek states:

1. Destek is a networking company specializing in distributed, high performance private-business and Internet-connected networking. Destek builds private corporate networks, public network access and gateways (i.e. Internet) and provides Internet firewall solutions to protect in-house data. Destek serves a number of businesses, schools and individual customers in New Hampshire. Destek obtains PRIs from Global Naps and through them serves a number of NH customers.

2. On Friday July 16, 2010 Destek first learned through an email that FairPoint would be shutting off the interconnection trunking to Global Naps in NH LATA 122 and that the shutdown was expected to occur on July 17 and that it would affect both INBOUND and OUTBOUND service.

3. In response to this email Destek and its undersigned counsel has been contacting representatives of FairPoint, Global Naps, the Commission and other providers to try to find a solution so that hundreds of Destek’s customers will not be shut

down. Destek believes that FairPoint has already shutdown OUTBOUND traffic and that it intends to shut down Global Naps INBOUND traffic on Thursday July 22, 2010.

Destek has spent hours trying to port its numbers to another provider and has reached the conclusion that it can not be done within the time frame indicated.

4. It is Destek's understanding that Global Naps was required to notify its customers of disconnection in other similar situations. See Order No. 25,108 in DT 10-136 (issued June 4, 2010); Order No. 25,043 in DT 08-028 (issued November 10, 2009). Destek does not see any similar notice requirement in this docket. As noted above, Destek did not receive any such communication from Global Naps and on information and belief, Destek believes that many other NH customers did not receive such notification. Destek further states that it believes the number of customers that may be affected by this shut off, a list of which it understands was provided to the Commission earlier this week, is close to 6000.

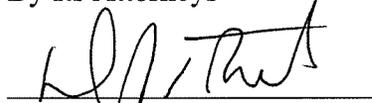

5. While Destek understands and sympathizes with the reasons for shutting off Global Naps, Destek maintains that it and others should be given more time to make the transition to another provider, especially since the customers were not notified of the disconnection. Destek believes that any harm that may result from delaying the shut off is outweighed by the harm avoided to numerous NH customers if the shut off is allowed to occur as scheduled.

6. Destek understands that FairPoint has already shutdown OUTBOUND traffic associated with Global Naps and that this limits or eliminates the charges that would be incurred by GNAPs at the expense of Fairpoint and the Rural Carriers in NH. What Destek is seeking is a delay in the shutdown of INBOUND traffic.

WHEREFORE, Destek requests that the Commission grant emergency relief and delay the shut off of Global Naps customers until it can port the numbers to another provider, or that the Commission grant such other relief as it deems just and equitable.

Respectfully submitted,

The Destek Networking Group
