Re: Docket DE 10-188  
Revised Intervenor's Proposal to use RGGI funds in CORE Programs

Dear Ms. Howland:

On behalf of Intervenor to the CORE Energy Efficiency Programs, including the New Hampshire Community Action Agencies Association, the New Hampshire Housing Finance Authority, the Community Loan Fund, TRC Energy Services, and The Jordan Institute, we are pleased to present the attached revised proposal for use of 2012 Regional Greenhouse Gas Initiative auction proceeds.

At the August 30, 2012 hearing relative to the use of these funds, the Commission requested this collaborative group to revise our proposal and provide the case that these funds may be invested in energy-efficiency projects through the CORE process but not through the Utilities. We believe this proposal addresses these requests.

We thank you and the Commission for the encouragement to proceed in this matter and look forward to the Commission's decision in how to best use these funds in the short time available.

Respectfully submitted,

D. Dickinson Henry, Jr.  
Executive Director  
The Jordan Institute

**Certificate of Service**

I certify that on this date, eight copies of the foregoing was hand delivered to PUC staff and the Office of the Consumer Advocate.
