RE: Waiver Request to Obtain Growth Numbering Resources in Exeter, NH

Dear Mr. Howland:

Enclosed please find a letter from our customer stating their need for a one-thousand block of numbers in Exeter, NH. BayRing has not reached the 75 percent utilization threshold in the Exeter rate center; however we do not have the resources available to provide one-thousand sequential numbers in the 1XXX line range, for this customer as requested.

Please accept this request for a state waiver in order to be assigned a growth block of numbers in the Exeter, NH rate center. As stated by our customer they would like to begin activating these numbers in the fall of this year.

Thank you for your consideration. If you have any questions, please do not hesitate to contact me at 603-766-1672, or by email to jennifer@bayring.com.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jennifer M. Hassen".
