Re: Monthly cost of energy over/under reconciliation (DG 10 – 242)

Dear Ms. Howland,

Enclosed is the June (corrected) and July 2011 reconciliation report. The June report is modified because there was incorrect data used to complete the previous report. The gas fuel usage for the month was incorrectly reported as 1,719 mmbtu's when in fact it should have been reported as 3,312 mmbtu's. The error did not change the cost of fuel for the month as the actual cost was reported correctly. The current September 2011 energy charge is \$16.64/mlb. The rate in October 2011 is to remain unchanged at \$16.64/mlb.

If there are any questions please call me.

Yours Truly,

Mark E. Saltzman
Vice President
