Re: DE 10-290, Clean Asset Partners Corporation  
Application for Class II Eligibility of the Phoenix Park Photovoltaic Facility  
Pursuant to RSA 362-F on behalf of Phoenix Finance, LLC

Dear Mr. Kaufman:

On October 28, 2010, Clean Asset Partners Corporation (CAP) submitted an application on behalf of Phoenix Finance, LLC requesting certification of the Phoenix Park customer-sited photovoltaic facility (Phoenix Park facility) as eligible to produce Class II renewable energy certificates (RECs), pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval, noting that the application was completed on October 28, 2010.

Class II eligibility requires that a facility began operation after January 1, 2006 and that it produces electricity from solar technologies. The application indicates that the Phoenix Park facility is customer-sited photovoltaic facility that is located at 2 Shaker Road, Shirley, Massachusetts. The facility includes five 101.2 kW systems, totaling a gross nameplate capacity of 506 kilowatts. The first three systems began operation on April 9, 2010, and the remaining two systems began operation on September 22, 2010. The facility's New England Power Pool (NEPOOL) Generation Information System facility code is NON 33063.

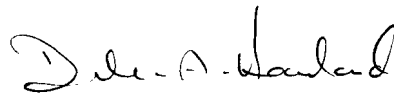

Since the facility is a customer-sited source, its output is not recorded in the NEPOOL Market Settlement System and, as a result, its output must be monitored and verified by an independent monitor. The application states that Quincy Vale will monitor

the facility's output as required by the New Hampshire Code of Administrative Rules Puc 2505.09.<sup>1</sup>

Based on Staff's recommendation, the Commission has determined that CAP has provided all the necessary information to demonstrate that the facility is eligible for certification as a Class II facility. Therefore, the Commission hereby certifies that the Phoenix Park facility is a Class II renewable energy source effective October 28, 2010 and is eligible to be issued New Hampshire Class II renewable energy certificates.

The New Hampshire Renewable Portfolio Standard certification code for the Phoenix Park photovoltaic facility is NH-II-10-117.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland". The signature is fluid and cursive, with the first name "Debra" being more prominent.

Debra A. Howland  
Executive Director

---

<sup>1</sup> On September 14, 2010, the Massachusetts Department of Energy Resources approved Quincy Vale as an independent third party meter reader pursuant to the NEPOOL GIS Operating Rule 2.5 (j).

Re: DE 10-290, Phoenix Finance, LLC  
Certification of the Phoenix Park Photovoltaic Facility as a New Hampshire RPS Class II  
Facility Pursuant to RSA 362-F  
New Hampshire Certification Code NH-II-10-117

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the Phoenix Park photovoltaic facility (Phoenix Park facility) as a Class II renewable energy source effective October 28, 2010. Accordingly, the Phoenix Park facility is eligible to be issued New Hampshire Class II renewable energy certificates.

The Phoenix Park facility is a 0.506 megawatt (MW) customer-sited photovoltaic facility located at 2 Shaker Road Shirley, Massachusetts that began operation on April 9, 2010. Quincy Vale, the facility's independent monitor, will verify and report to the NEPOOL Generation Information System (GIS) the facility's output using facility code NON 33063 pursuant to the NEPOOL GIS Operating Rules. The facility's New Hampshire certification code is NH-II-10-117.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland".
