Re: DE 11-001 and DE 11-002, Boston Community Capital Solar Energy Advantage, Inc.
Certification Applications for Class II Eligibility Pursuant to RSA 362-F

Dear Mr. Unger:

On January 3, 2011, you submitted applications on behalf of Boston Community Capital Solar Energy Advantage, Inc. (BCC) requesting certification of its Adams Court A and Adams Court B customer-sited photovoltaic arrays as eligible to produce Class II renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the applications and recommended approval noting that the BCC applications were completed on January 3, 2011.

Class II eligibility requires that a facility began operation after January 1, 2006 and that it produces electricity from solar technologies. The applications indicate that the facilities are customer-sited photovoltaic arrays located in Boston, Massachusetts and that they began operation on November 5, 2010. The details for each facility are listed in the table on the following page.

Commission Assigned Docket #	Facility Owner	Facility Location	Operation Date	Effective Date to Produce RECs	Total kW listed in application (DC Arrays)	NH Certification Code
DE 11-001	Adams Court A	415 & 431 River Road, Boston, MA	11/05/2010	01/03/11	59.1	NH-II-11-007
DE 11-002	Adams Court B	435 River Road, Boston, MA	11/05/2010	01/03/11	14.8	NH-II-11-008

Since the facilities are customer-sited sources, their output is not recorded in the New England Power Pool Market Settlement System and, as a result, their output must be monitored and verified by an independent monitor. The applications state that the BCC's independent monitor, PowerDash LLC, will monitor the facilities' output as required by N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. These facilities' total output will also be included in the *BCC Solar Energy Advantage Inc Aggregation P's* total output reported to the NEPOOL Generation Information System under the NEPOOL GIS facility code NON 32833, as approved by the Commission on January 8, 2010.

Based on Staff's recommendation, the Commission has determined that BCC has provided all the necessary information to demonstrate that the facilities are eligible for certification as Class II facilities. Therefore, the Commission hereby certifies the BCC facilities as eligible for Class II RECs, effective January 3, 2011.

The New Hampshire Renewable Portfolio Standard certification codes for the above mentioned solar photovoltaic facilities are listed in the previous table.

Sincerely,

Debra A. Howland
Executive Director

Re: DE 11-001 and DE 11-002, Boston Community Capital Solar Energy Advantage Inc.
Certification Applications for Class II Eligibility Pursuant to RSA 362-F
of its Adams Court Facilities
New Hampshire Certification Codes: NH-II-11-007 and NH-II-11-008

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified two customer-sited rooftop photovoltaic facilities owned by Boston Community Capital Solar Energy Advantage, Inc. (BCC facilities) as Class II renewable energy sources effective January 3, 2011. Accordingly, the BCC facilities are eligible to be issued New Hampshire Class II Renewable Energy Certificates.

Each facility's size and location are listed in the following table.

Commission Assigned Docket #	Facility Owner	Facility Location	Operation Date	Effective Date to Produce RECs	Total kW listed in application (DC Arrays)	NH Certification Code
DE 11-001	Adams Court A	415 & 431 River Road, Boston, MA	11/05/2010	01/03/11	59.1	NH-II-11-007
DE 11-002	Adams Court B	435 River Road, Boston, MA	11/05/2010	01/03/11	14.8	NH-II-11-008

PowerDash, LLC, the facilities' independent monitor, will verify and report to the NEPOOL Generation Information System (GIS) each facility's output when it reports the total output of all its Class II eligible facilities, under the name *BCC Solar Energy Advantage Inc. Aggregation I*, pursuant to the NEPOOL GIS Operating Rules. The aggregation's NEPOOL GIS facility code is NON 32833. Each facility's New Hampshire certification code is listed in the table above.

Sincerely,

Debra A. Howland
Executive Director
