IDT America, Corp. ("IDT") is authorized by the New Hampshire Public Utilities Commission to provide intraLATA toll service throughout the New Hampshire pursuant to Order No. 23,473 in DT 00-023 and local telecommunications services in the incumbent Fairpoint (formerly Verizon) territory pursuant to Order No. 24,124 in DT 02-229. Copies of both Orders are located at Attachment B.

IDT subsequently entered into a Settlement Agreement with the PUC and MetroCast Cablevision of New Hampshire ("MetroCast"), LLC in DT 06-169. The purpose of the Settlement Agreement was to set certain guidelines under which IDT would obtain numbering resources for the purpose of being able to provide service to MetroCast end-user customers. A copy of the Settlement Agreement is located at Attachment C.

On September 30, 2008, the New Hampshire Public Utilities Commission issued Authorization No. C01-005-07, thereby granting MetroCast authorization by to provide local telecommunications services in the following incumbent ILEC territories of UnionTel:

- Alton (excluding areas served by FairPoint)
- Barnstead
- Center Barnstead
- Farmington (excluding areas served by FairPoint)
- Gilmanton (excluding areas served by FairPoint)
- New Durham
- Strafford (excluding areas served by FairPoint)

With this Application, IDT seeks to extend its authorization to provide local telecommunications service to those same communities served by MetroCast in the ILEC territory of UnionTel, namely:

- Alton (excluding areas served by FairPoint)
- Barnstead
- Center Barnstead
- Farmington (excluding areas served by FairPoint)
- Gilmanton (excluding areas served by FairPoint)
- New Durham
- Strafford (excluding areas served by FairPoint)

Upon approval of this Application, IDT intends to effectively extend its commercial relationship with MetroCast – currently only in effect in certain communities served by FairPoint – into the aforementioned UnionTel ILEC territories. Accordingly, IDT agrees to extend and abide by the terms of its Settlement Agreement into the above-listed UnionTel ILEC territories. IDT believes that in doing so, it will provide a competitive alternative to UnionTel, thereby benefiting consumers.

Accordingly, IDT does not request any limits on its ability to offer local telecommunications service.
