**Re: Docket No. DT 11-061; Northern New England Telephone Operations LLC
Wholesale Performance Plan**

Dear Ms. Howland:

Northern New England Telephone Operations LLC d/b/a FairPoint Communications – NNE (“FairPoint”) hereby files a revised copy of the July 2015 aggregate Wholesale Performance Plan (WPP) report.

FairPoint identified an inaccuracy in the results of certain OR-1 and OR-2 metrics in the previously issued June and July 2015 WPP reports. The inaccuracy was corrected effective with the WPP reports issued for August 2015.

More specifically, FairPoint identified that some ordering transactions were missing from product groups 3331 (UNE 2-Wire Analog Loop/LNP) and 3332 (UNE 2-Wire Loops /LNP) reported in the OR-1-02-3332, OR-1-04-3331, OR-2-02-3332, and OR-2-04-3331 metrics.

The inaccuracy was determined to be material in New Hampshire pursuant to the terms of the WPP. The magnitude of the inaccuracy on a CLEC aggregate basis for July is \$2,072 and for June is estimated at zero dollars (\$0.00).

Revised WPP reports for July 2015 were posted to the CLEC portals today. Corrective bill credits plus an inaccuracy penalty of \$.0005 per day will be applied to the BANs of affected CLECs or deposited into the New Hampshire Telecommunications Planning and Development Fund within 30 days of issuance of the revised July reports. Revised WPP reports for June should be posted to the CLEC portals and filed with the Commission in early November.

An electronic copy of this letter and the revised July aggregate WPP report will be filed today via the Commission’s Electronic Report Filing System.

Thank you.

Regards,

Robert D. Meehan
