**Re: Docket No. DT 11-061; Northern New England Telephone Operations LLC  
Wholesale Performance Plan**

Dear Ms. Howland:

Northern New England Telephone Operations LLC d/b/a FairPoint Communications – NNE (“FairPoint”) hereby files a revised copy of the June 2015 aggregate Wholesale Performance Plan (WPP) report.

As explained in FairPoint’s October 7, 2015 correspondence, FairPoint identified an inaccuracy in the results of certain OR-1 and OR-2 metrics in the June and July 2015 WPP reports. Specifically, FairPoint identified that some ordering transactions may have been missing from product groups 3331 (UNE 2-Wire Analog Loop/LNP) and 3332 (UNE 2-Wire Loops /LNP) reported in the OR-1-02-3332, OR-1-04-3331, OR-2-02-3332, and OR-2-04-3331 metrics.

The inaccuracy was corrected in the WPP reports issued for August 2015.

The inaccuracy was determined to be material in New Hampshire in July pursuant to the terms of the WPP. (Revised July 2015 aggregate WPP report filed October 7, 2015.) For June, the previously reported performance results for these four metrics did not change although the number of transactions for three of four of these metrics did increase. Accordingly, there is no change in bill credits due any CLEC for June 2015. The enclosed revised report reflects the change in aggregate transaction quantities for these metrics.

Revised WPP reports for June were posted to the CLEC portals today.

An electronic copy of the revised June 2015 aggregate WPP report will be filed today via the Commission’s Electronic Report Filing System.

Thank you.

Regards,
