Re: Administrative Changes to Terms and Conditions for Suppliers - Interval Data Access Service

Dear Ms. Howland:

Enclosed for filing with the Commission is the following revised tariff page:

NHPUC No. 8 – Electricity Delivery Service
Public Service of New Hampshire

1st Revised Page 33

Effective: September 1, 2011

Public Service Company of New Hampshire (PSNH) offers an interval data access service to suppliers under the Terms and Conditions for Suppliers section of its tariff. The amount charged to suppliers is \$25.00 per month for each delivery service account for which the service is provided. For administrative efficiency, PSNH would like to offer suppliers the option of paying for the service at an annual rate of \$300.00 in lieu of paying for service monthly. This option would allow for less monthly administrative costs for PSNH for processing bills for the service, since PSNH would bill suppliers who chose to pay for the service in an annual basis only once per year. It also would provide administrative efficiency for suppliers, since they could choose to pay only one bill per year instead of twelve.

Enclosed please find an original and six copies of the revised tariff page providing the change to the Terms and Conditions for Suppliers – Interval Data Access Service. We are also enclosing a redlined version of the tariff page showing the proposed changes.

Very truly yours,

Stephen R. Hall
Rate & Regulatory Services Manager
