August 18, 2016

Dear Ms. Howland,

I'm writing to provide notice of discontinuation of independent monitor service for NH Class II RECs. The discontinued service is for new clients, only, following thirty (30) days notice – effective September 18, 2016 (or another time period of notice per the NH PUC).

My other work in residential construction is requiring much of my time and the distance from my current location on Great Diamond Island, ME makes initial site visits / meter inspections difficult. I will continue to monitor and report for my existing NH clients.

Thank you,
Thomas Kelly
