RE: SourceOne, Inc. (DE) Initial Application to Provide Electric Aggregator Services

Ms. Howland,

Enclosed please find an original, two copies, and an electronic copy of our initial application to provide electric aggregator services in New Hampshire. To date, SourceOne, Inc. has not operated as an aggregator in New Hampshire but has a long history of serving as a broker/consultant in other deregulated markets and has the staff in place to provide excellent service to future clients in New Hampshire.

SourceOne was founded and organized in 2000 to serve the emerging needs of private and public entities associated with commodity procurement, infrastructure development, sustainability programming, sourcing capacity/reliability, and providing utility bill review. Some eleven years post our commencement we now serve many of the largest loads in the Northeast and many of the region's most recognizable institutional, biotechnology, healthcare, pharmaceutical, real estate development, commercial and public entities. We have achieved this standing by offering customer centric tools, products, and services with an unwavering desire to deliver significant value. We currently provide many Fortune 500 companies with energy expertise and owner's representative services. Veolia Energy, our parent company and the US subsidiary of Veolia Environnement, is the world's largest operator of cogeneration systems. Veolia Energy recognizes the expertise and talents of SourceOne and we will be an integral part of their growth plans for the U.S. market.

Upon your review, please feel free to contact me directly if you have any questions or require additional materials.
