Re: Revised annual cost of energy over/under reconciliation (DG 09 - 169)

Dear Ms. Howland,

Enclosed is a revised 2010 annual cost of energy over/under reconciliation report. The report is modified because there was incorrect data used to complete the previous report. The revised numbers are a result of corrections that were made to actual energy costs as a result of an audit of those costs by NHPUC staff on June 21, 2011. The adjustments were made for fuel used in August, September and October of 2010. The adjustments are as follows:

	As Reported	Corrected	Difference
August	\$79,737	\$87,754	\$8,017
September	\$93,792	\$94,386	\$594
October	\$147,583	\$149,761	\$2,178

The total annual adjustment increased the cost of fuel purchased in 2010 by \$10,789. The enclosed corrected annual report reflects these corrections.

If there are any questions please call me.

Yours Truly,

Mark E. Saltsman
Vice President
