Re: DE 11-220, Evergreen Wind Power III, LLC
Application for Class I Eligibility of the Rollins Wind Farm Project Pursuant to
RSA 362-F.

Dear Ms. Weir:

On September 7, 2011, Evergreen Wind Power III, LLC submitted an application requesting certification for its Rollins Wind Farm (Rollins) project as a Class I facility pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law. Staff has reviewed the application and recommends approval (noting that all information required to complete the application in accordance with New Hampshire Code of Administrative Rules Puc 2500) was received on November 14, 2011.

The Rollins facility is comprised of 40, 1.5 megawatt (MW) wind turbines that began operation on July 26, 2011. The nameplate capacity is 60 MW of wind-generated electricity. Rollins' output is transmitted to the Bangor Hydro Electric's substation via the Keene Road Substation to bring the power from the wind farm to the electric grid.

The application provides documentation that the project has met all the requirements of the State of Maine, Department of Environmental Protection. The NEPOOL generation information system (GIS) facility code has been verified as MSS 37175. The ISO-New England asset identification number is ISO-NE#: 37175.

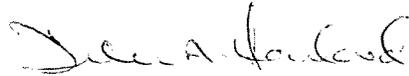

The Commission has reviewed the Rollins application and determined that Evergreen Wind Power has provided documentation to demonstrate that the project meets all the requirements of Puc 2502.02 and is eligible for certification as a New Hampshire Class I facility. Therefore, the Commission hereby certifies that the Rollins facility is a

Class I renewable energy source effective November 14, 2011 and is eligible to be issued New Hampshire Class I Renewable Energy Certificates.

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Rollins facility is NH-I-11-037.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland". The signature is fluid and cursive, with the first name being the most prominent.

Re: DE 11-220, Evergreen Wind Power III, LLC
Application for Class I Eligibility of its Rollins Wind Farm Project
Pursuant to RSA 362-F.

Dear Mr. Webb:

Pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law, the New Hampshire Public Utilities Commission has certified the Evergreen Wind Power III, LLC Rollins Wind Farm (Rollins) as a Class I facility, effective November 14, 2011. Rollins consists of 40, 1.5 megawatt wind turbines that began operation on July 26, 2011. The nameplate capacity is 60 megawatt (MW) of wind-generated electricity. The facility is located at 1600 Lee Road, Lincoln, ME 04348.

Rollins' output is transmitted to the Bangor Hydro Electric's substation via the Keene Road Substation to bring the power from the wind farm to the electric grid. The NEPOOL generation information system (GIS) facility code has been verified as MSS 37175. The ISO-New England asset identification number is ISO-NE#: 37175. The New Hampshire Renewable Portfolio Standard certification code for the Rollins facility is NH-I-11-037.

Sincerely,

A handwritten signature in black ink that reads 'Debra A. Howland' followed by a stylized flourish.

Debra A. Howland
Executive Director
