RE: Public Hearing
Aquarion Water Company
DW12-085

Dear Commissioners;

Thank you for taking the time to hear our concerns regarding the Aquarion Water Company proposed rate increase. We own five (5) units on Duston Avenue in Hampton, all fully sprinklered for fire protection.

We pay a fire service charges of \$511.50 per duplex per year and on an average this charge is far more than the actual water consumption for the units themselves. Further, as we were also the developers of these units, we installed all the piping and valves for the fire service to each building that Aquarion now charges us for. We received no rebate for any capital costs incurred by us for these installations.

As it now stands, the existing fee is already exorbitant, Aquarion provides nothing to us for the amounts paid, and to grant them an increase to increase their profit margin in a down economy is unjust and unfair. We are strongly opposed to this rate increase, as Aquarion has not shown any justification for any additional expense or capital outlay for the fire service protection. All installation costs are borne by the developers, and then Aquarion starts billing the unit owners. This is a 100% profit item for Aquarion.

As previously stated, we strongly oppose the rate increase as proposed by File # DW12-085, and we would be happy to testify at any future hearing on this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Vincent Iacozzi". The signature is fluid and cursive, written over a light blue horizontal line.
