**Re: DW 12-085 – Aquarion Water Company of New Hampshire, Inc.
Temporary Rate Recoupment Calculation and Summary**

Dear Ms. Howland:

Per Order No. 25,539 issued on June 28, 2013, I enclose Aquarion Water Company of New Hampshire's ("Aquarion") temporary rate recoupment calculation in DW 12-085, as well as a summary of the proposed method for recovery. Aquarion's proposed method of surcharge collection is generally consistent with that approved by the Commission in Dockets DW 05-119 and DW 08-098 and allows for the collection of \$595,244 over a twelve month time period. Enclosed are the following:

- Narrative summarizing the temporary rate recoupment calculation methodology;
- Schedule 1: Summary results and rate calculation;
- Schedule 2: Recoupment calculations for fire service customers;
- Schedule 3: Recoupment calculations for non-seasonal water service customers; and
- Schedule 4: Recoupment calculations for seasonal water service customers.

Thank you for your assistance in this matter. Please do not hesitate to contact me if you have any questions regarding the enclosed materials.

Very truly yours,

Patrick H. Taylor
