Re: DM 12-145, NextEra Energy Services New Hampshire, LLC
Renewal of Registration to Supply Competitive Electric Service in New Hampshire

Dear Mr. Dearman:

On May 30, 2012, the New Hampshire Public Utilities Commission (Commission) received an application from NextEra Energy Services New Hampshire, LLC to renew its registration as a Competitive Electric Power Supplier (CEPS). In its application, NextEra Energy filed a waiver request pertaining to Puc 2003.02(a) which requires the application for renewal be filed no less than 60 days prior to the expiration of the currently effective registration. NextEra Energy's renewal was due 60 days prior to the expiration date of June 9, 2012. NextEra Energy cited that the delay was due to an administrative oversight. On July 25, 2012, NextEra Energy requested a 45 days extension to update the financial surety to meet the requirement of Puc 2003.03(a)(5). On August 16, 2012, the company provided a financial surety which meets the requirement pursuant to Puc 2003.03 (a)(5).

The Commission may waive a rule pursuant to Puc 201.05 if it finds the waiver serves the public interest and the waiver does not disrupt the orderly and efficient resolution of matters before the Commission. The Commission has determined that the applicable standards for a waiver are satisfied and that granting a waiver is consistent with the public good.

Staff has reviewed the application and believes that it meets the requirements of Puc 2003.01. Based on Staff's recommendation and the Commission's review, the Commission will approve NextEra Energy's application to have its registration as a competitive electric power supplier (CEPS) renewed.

Page two

Please bear in mind the following provision of Puc 2003.02 (a) "Each registered CEPS shall re-register with the commission every 5 years by filing with the commission an application for renewal. Each application for renewal shall be filed no less than 60 days prior to the termination of the currently effective registration. If a CEPS fails to meet its re-filing obligation, its registration shall expire by its terms." Therefore, NextEra Energy is required to re-register on or before April 9, 2017. You are also advised that CEPS and aggregators must comply with the renewable portfolio standard (RPS) requirements of RSA 362-F. The RPS obligation applies to every "provider of electricity" as defined in RSA 374-F:2, II which includes CEPS and aggregators. See RSA 362-F:2,XIV. Please also refer to N.H. Code Admin. Rules Puc 2500 for further details regarding compliance and reporting requirements. Compliance is on a calendar year basis and must be reported to the Commission by July 1 of the subsequent calendar year. In addition, pursuant to RSA 378:49, all CEPS, electric service brokers and aggregators must comply with the requirement to disclose environmental characteristics of the electricity they sell to retail customers. Commission Order No. 25,264 provides guidance as to the appropriate format for such disclosure.

If you have any questions regarding this provision, please contact the Commission. Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland". The signature is fluid and cursive, with a large initial 'D' and 'H'.

Debra A. Howland
Executive Director
