**Re: CRC Communications LLC d/b/a OTT Communications
CLEC Rate Schedule**

Dear Ms. Howland:

On June 4, 2012, CRC submitted revisions to its Rate Sheet pursuant to the Federal Communication Commission's *Access Reform Order* and *VoIP-PSTN Order*. However, after discussions with Staff, OTT requests that the filing dated June 4, 2012 be withdrawn and that the enclosed filing be substituted. The previous filing included provisions for the treatment of VoIP-PSTN Traffic, but the substitute filing omits this section and just includes new access rates.

Accordingly, enclosed please find an original and two (2) copies of CRC Communications LLC's ("CRC") proposed new rate sheet, which includes the CLEC Rate Schedule Cover Sheet. Also enclosed, please find seven (7) copies of both the confidential version and redacted version of the access rate worksheet.

If you have any questions, I may be reached at (207) 992-9920 or by email at trina.bragdon@ottcommunications.com.

Sincerely,

Trina M. Bragdon
