terms and conditions of services to be provided, and that tariff is available to those CLECs that choose to use the wholesale tariff in lieu of individually negotiated interconnection agreements. Therefore, in this docket, we seek to identify those wire centers for which Verizon's tariff rates apply.

The New Hampshire Public Utilities Commission (Commission) opened this docket pursuant to RSA 365:5, RSA 365:19, and RSA 374:4 to clarify certain issues regarding Verizon's classification of its wire centers, and its obligation as an ILEC to continue to provision certain UNEs in light of the FCC's TRO Remand Order and the Telecom Act.

On April 22, 2005, the Commission issued an Order of Notice scheduling a prehearing conference for May 25, 2005 and noting that the purpose of the investigation is to determine which wire centers in New Hampshire are affected by the TRO Remand Order and what procedure the Commission should adopt for future determinations with respect to affected wire centers. The Commission reserved the option, if UNEs were delisted in a wire center, to determine whether Verizon continued to be obligated to provide those UNEs under Section 271 of the Telecom Act.

Requests for intervention were filed by Conversent Communications, BayRing Communications, DIECA Communications Inc. d/b/a Covad Communications Company, Biddeford Internet Corporation d/b/a Great Works Internet, CTC Communications, Lightship Telecom, segTEL, Inc., and MCI, Inc. On April 26, 2005, the Office of Consumer Advocate (OCA) filed their notice of participation on behalf of residential ratepayers consistent with RSA 363:28. The Prehearing Conference was held on May 25, 2005, at which no objections were made to the requests for intervention. Broadview Networks filed a late request to intervene on June 13, 2005.
