

**New Hampshire Public Utilities Commission Docket Number 07-027
Comcast Phone of New Hampshire, LLC
Company Responses
To TDS Petitioners' Set 1 Data Requests
November 9, 2007**

TDS-Comcast 1-5. Provide projections either anticipated, current or historic as to the numbers of customers or percentage of customers who opt to take Comcast telecommunications service once it is made available by Comcast. Provide copies of marketing materials utilized by Comcast when telecommunications service is offered to a new area.

Response:

The Respondent objects to TDS Petitioners' Data Request 1-5 on the grounds that it seeks confidential and proprietary commercial and strategic information. Comcast Phone is a competitive local exchange carrier. The information sought pertains to the provision of competitive services and includes confidential, research or commercial information, including customer, geographic, market and product-specific data.

Subject to and without waiving these objections, the Respondent will provide information responsive to Data Request 1-5 in the form of marketing materials for Comcast Phone's Comcast Digital Phone ("CDP") service in New Hampshire, hereto attached as Exhibit A1.

David Kowolenko is responsible for this response.

2 Feature Pack

Includes: Call Waiting and Caller ID.

Multi-Feature Pack

Includes: Call Waiting, Distinctive Ring, Caller ID, Call Return, Speed Dial 30, 3-Way Calling, Anonymous Call Rejection, Call Screening, Call Forwarding Variable, Call Forwarding Selective, and Repeat Dialing.

Comcast Digital Phone – calling features:

Caller ID²

Before you answer, see the incoming caller's phone number & name.

Call Waiting

When you're on the phone, a soft beep tells you there's another call. You can take the second call without disconnecting the first.

Now, Caller ID and Call Waiting work together so you'll always know who's calling—even when you're on the phone.

3-Way Calling

Add a third party to an existing connection, creating a 3-way conference call.

Call Screening

Don't want to take calls from certain parties? Up to 12 numbers can be routed automatically to a polite message that indicates you are not receiving calls.

Speed Dial 8

Store and easily retrieve 8 frequently called numbers by dialing just one digit.

Speed Dial 30

Store and easily retrieve 30 frequently called numbers by dialing just two digits.

Call Forwarding

Forward all of your calls to a designated local, long distance or wireless telephone number so you can receive calls no matter where you are.

Distinctive Ring

Know instantly when a certain party is calling. A special ring signals that the call is from one of up to 12 phone numbers you've designated.

Custom Ring

Customize your incoming calls by assigning two different phone numbers to a single line. A special ring signals which phone number the incoming caller has dialed.

Call Return

Miss a call? This feature gives you the phone number of the last caller, plus the option to be connected automatically.

Repeat Dialing

Redials busy numbers automatically for up to 30 minutes and lets you know when the number is available.

Anonymous Call Rejection

Add this feature to Caller ID to reject calls from unknown or blocked numbers.

Long Distance Alert

Separately identifies local and long distance incoming calls by a different ring or tone.

Voice Mail

You're never out of reach with Comcast Voice Mail. Voice Mail takes your calls when you're away from home, on the line or too busy to answer. You can access your messages from any phone, anywhere. Voice Mail Deluxe also gives you the advantages of pager notification, sub mailboxes and send-a-message capability.

Comcast Digital Phone.

One simple connection that offers local and long distance service, convenient calling features, and digital technology. All priced to fit your needs and designed to fit the times.
