

We, the undersigned property owners in Lake Ossipee Village, oppose the proposed increase in water rates.  
Since purchasing Lake Ossipee Village Water Company, Lakes Region Water Company has increased rates by over 300%. The new projected rate would be another 38% followed by a 7.8% increase in 2011.  
We feel the lack of improvement to the water quality and the water system does not justify this increase.
