Bob Montville

Bob Montville has been a financial advisor and coach to small business owners for the past twenty-six years. He started his small business career with a national consulting firm traveling the United States, Europe and Canada. He has worked with companies listed on Inc. Magazines fastest growing firms as well as businesses in the start-up stage. Most of Bob's current clients have come from client referrals or professionals familiar with his successful work in the small business arena.

His expertise focuses on the financial management of his client companies. He works with his clients to integrate financial data into the entities short and long-term profit strategies.

In addition to his financial consulting experience Bob has taught business courses at the University of New Hampshire, Bentley University and Southern New Hampshire University.

He is a graduate of Bentley University in Waltham, MA with a BA and MA in Finance and Accounting and was a former practicing CPA.

Bob lives in Portsmouth, New Hampshire with his wife Juli. They have two children, a daughter Morgan who works as a medical professional and Michael who is a student/athlete at the University of Maryland.

"My business philosophy is simple. I focus my clients on building a sound financial foundation for their business. This foundation can only be built with consistent profits that find their way to the company's Balance Sheet. Having assets available to invest allows a company to take advantage of opportunities their competitors may not be able to. In addition, a solid Balance Sheet provides valuable insurance that a company can survive in bad times – this is extremely important in today's business climate. You build consistent profits and a good Balance Sheet by paying attention to your core business. Deviation from core business segments can often lead to disappointing results and even disasters. I won't allow my clients to be in the center of a storm they can't survive."

Montville Exhibit B Summary of Lakes Region Water Financial Data 2001-2010

Quick Summary: How Did This Company Get Into Its Current Financial Crisis

Analysis is from 2001 to 2010

Net Water Unility Income Other Income Expense Depreciation Converstion of Income to "Spendable Cash"	\$ 521,437 51,296 920,299 1,493,032	•	
Gross additions to utility plant Less: CIAC contribution Net additions to utility plant	(2,937,834) 620,797 (2,317,037)	•	
Negatvie Cash Flow due to Capital Additions		\$	(824,005)
Monies Borrowed to Fund Net Capital Additions			1,377,272
What We Had to Pay back on the Borrowed Funds Principal Interest Total	(906,551) (554,972)		(1,461,523)
Net Cash Flow from 2001 to 2010			(908,256)
Major "Other Sources" to Fund Negatvie Cash Flow			(300,230)
