

Independent Monitor's Annual Electricity Production Report for 2015

Facility Name: Wagner Forest PV
NH Certificate Code NH-II-12-056
Nameplate Capacity (DC) 24 kW
1 st quarter production: 6,668 kWh
2 nd quarter production: 10,968 kWh
3 rd quarter production: 11,909 kWh
4 th quarter production: 5,889 kWh
Total annual production: 35,434 kWh
NH Class II Source Effective Date: August 20, 2012
* Estimated Class II RECs to be created from annual production: 34.8 RECs

* Please note that after the 1st quarter, the reporting methodology switched from reporting whole megawatt-hours and carrying forward excess kilowatt-hours to the next month, to simply reporting directly in kilowatt-hour increments. This switch means that the NEPOOL GIS carries forward excess kilowatt-hours within its system since the RECs are only minted in megawatt-hour denominations.
