Dear Mr. McNeil:

On July 26, 2012, you submitted applications on behalf of the above-named applicants requesting the Commission grant approval of photovoltaic facilities located at each of their residences to produce Class II, Renewable Energy Certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed these applications and has recommended approval of the above-named applicants' photovoltaic arrays as eligible for Class II RECs effective July 26, 2012.

Since these facilities are customer-sited sources, the output is not recorded in the New England Power Pool Market Settlement System and, as a result the output must be monitored and verified by an independent monitor. Your application states that NHEC will monitor the facilities' output as required by N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. These facilities' total output will also be included in the *NHEC Class II Aggregation's* total output reported to the NEPOOL Generation Information System as approved by the Commission on April 9, 2010.

The details for these facilities are listed in the following table.

Docket #	Facility Owner	Facility Location	Total MW listed in application (DC Arrays)	Effective Date to Produce RECs	NH Certification Code

DE 12-236	Haines	Center Harbor	.00495	07-26-12	NH-II-12-050

The Commission has determined that NHEC has provided all the information necessary to demonstrate these facilities' eligibility for certification and hereby certifies the above-named residential photovoltaic arrays as eligible for Class II RECs effective July 26, 2012.

Sincerely,

Debra A. Howland
Executive Director
