Re: DM 12-247 inCharge, LLC
Natural Gas Aggregator Registration Application

Dear Mr. Pulling:

The application for inCharge, LLC to register as a natural gas aggregator was received on August 7, 2012. Staff of the New Hampshire Public Utilities Commission (Commission) has completed its review of the registration application. The submitted application included incorrect information in one of its responses and is therefore deficient in its current form.

inCharge, LLC should update its response to the following requirement in its registration application:

Puc 3006.02(a)(6) - A list of the approved CNGSSs through which your company may provide service.

Currently, five of the nine entities identified as CNGSSs in the original application are not approved Competitive Natural Gas Suppliers in New Hampshire. Some of the entities listed in the application may be operating in New Hampshire as approved Competitive Electric Power Suppliers (CEPS) but operate under different CNGS trade names. Please refer to the approved list of CNGSSs on the Commission web page at the following link: <http://www.puc.nh.gov/Gas-Steam/naturalgascompetition.htm>

In order to complete the registration process, inCharge, LLC will need to address the issue referenced above. This requirement should be administratively straight forward to correct. A letter with the updated information should be filed at your earliest convenience to the docket number assigned to this application (DM 12-249). If you have any questions related to the registration requirements or to your registration application please contact me at (603) 271-2434.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert J. Wyatt".

Robert J. Wyatt
Utility Analyst IV, Commission Staff
