Notes:

1 - In calculating the planned performance incentive for 2013 in its initial 12/17/13 filling, Northern used the residential sector "Budget" from Attachment GG Page 1 of 4 (\$716,082), as the basis on which to calculate "Target Residential incentive" (\$87,315). However, this "Budget" fotal already incorporated estimated performance incentive expenditures. The "Implementation Expenses" total, as presented on Attachment GG Page 2 of 4 (\$658,948) is the more appropriate basis on which to calculate the 9% target residential incentive. The "Target Residential Incentive" included on Schedule GG Page 7 of 4 was therefore overstated by \$4,551 (\$57,315 - \$62,764). In the column labeled "As Requested", only implementation expenses (i.e., not including estimated PI), but including those program implementation funds requested in this filling) have been used as the basis for calculating the target residential incentive.

^{2 -} A similar calculation was made in the original filling for the C&I Sector as was made for the Residential Sector as described in Note 1. The C&I Sector had planned implementation expenses (not including Pi) of \$495,639, as reflected on Attachment GQ page 2 of 4. Recalculating the target performance incentive on the basis of these expenses results in a figure of \$39,651 rather than the \$43,071 displayed on line 8 of Attachment GQ Page 1 of 4, a difference of \$3,419. As a result, the C&I target incentive was overstated by \$3,420 (\$43,071 - \$39,881) and the total portfolio incentive was overstated by \$7,971.

^{3 -} Revised per August 21, 2013 transfer of \$27,000 from HPWES to ENERGY STAR Appliances.

Unitil Gas Energy Efficiency Target Benefit-Cost Ratio by Sector

Year ONE- January 1, 2013 - December 31, 2013 REVISED - October 9, 2013

Commercial & Industrial:		<u>Planned</u>
1. Benefits (Value) From Eligible Programs		\$4,014,227
2. Implementation Expenses		\$495,639
3. Customer Contribution		\$609,075
4. Target Performance Incentive	Revised	\$39,651
5. Total Costs Including Performance Incentive		\$1,144,365
6. Benefit/Cost Ratio - C&I Sector	Revised	3,51
Residential:		
7. Benefits (Value) From Eligible Programs	Revised	\$1,901,630
8. Implementation Expenses	Revised	\$724,362
9. Customer Contribution	Rovised	\$563,894
10. Target Performance Incentive	Revised	\$57,949
11. Total Costs Including Performance Incentive	Revised	\$1,346,205
12. Benefit/Cost Ratio - Residential Sector	Revised	1,41

Line No. Notes:

- 5. Sum of lines 2 through 4.
- 6. Line 1 divided by line 5.
- 11. Sum of lines 8 through 10.

^{12.} Line 7 divided by line 11. The revised Benefit/Cost Ratio for the Residential Sceler is lower than originally planned due to the fact that as a program, the ENERGY STAR Appliance Program has a lower Benefit/Cost ratio than other residential programs, and the addition of flinds to this program brings down the Benefit/Cost ratio for the sceler as a whole.
