RE: CEPS Initial Registration Application for Union Atlantic Electricity

Dear Ms. Howland:

We wish to inform the Commission that we expect our application to be complete by July 1, 2013, which is more than 60 days after our initial submission, as we may need some additional time to meet financial assurance requirements and complete EDI testing with at least one transmission and distribution utility. We are in queue for EDI testing with all of New Hampshire's transmission and distribution utilities at the moment, and expect to post financial assurance on a timeline that coincides with completion of testing with at least one of those utilities. We respectfully request that the Commission further extend our time for completion to July 1, 2013.

Thank you for your time and consideration.

Sincerely,

Clifford Ginn
President
