Re: Docket Numbers: DE 13-021

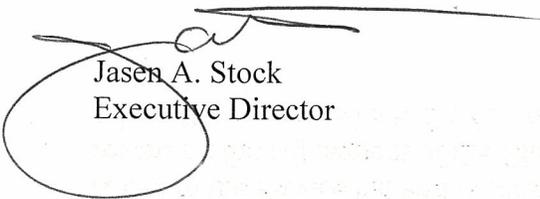

Dear Ms. Howland:

The New Hampshire Timberland Owners Association (NHTOA) is requesting to be added to the service list and is seeking intervener status for the referenced docket regarding the adjustment of the Class III renewable portfolio requirements and SB 218 rule to “adopt procedures for the metering, verification, and reporting of useful thermal output.”

The NHTOA is New Hampshire’s forest products trade and timberland owner membership association. We represent timberland owners, timber harvesters and timber transporters who supply fuel to the wood to energy power plants (electric and thermal) referenced in this docket.

Thank you for considering this request. If you have any questions please contact me.

Sincerely,

Jason A. Stock
Executive Director
