January 28, 2013

To Whom it May Concern:

Abworth Energy, LLC, DBA Abworth Energy, was formed on January 15, 2013. We base our company's philosophy on the idea that every client, not just large users of electricity and gas, needs representation in the energy space. Our goal is to educate those making the purchasing decisions so that they are capable of making the choices that suit their unique needs. We will take the time to explain to all of the clients that they have the choice to buy their Electricity and Natural Gas from any one of a number of suppliers. By staying current with the market trends, we are will be able to offer an informed opinion about the importance of timing in the purchasing process to help reduce risk.

Abworth Energy is an Energy Procurement firm. We have a large network of supplier relationships and we will be able to shop all types of demand profiles to provide competitive pricing to any size client. We will provide our customers with choices in the marketplace to help make the procurement process efficient and effective. We will work to save our client money as well as time.

We are not currently licensed aggregators for electricity or natural gas in any state. Abworth Energy is a new company, but the manager, Christine Britos, has worked with other Energy Procurement firms and she has experience in both Electricity and Natural Gas.

Abworth Energy plans to provide effective representation to the small and medium size users in the energy space. We want our business to be built one client at a time and we will work to keep our focus on our customers.

Sincerely,

A handwritten signature in cursive script, appearing to read "Christine Britos".

Christine Britos
Manager
Abworth Energy
