SUBJECT: DM 13-044 Notice of Energy New England, LLC's Intent to Provide Electric Aggregation Service; Staff Recommendation

TO: Debra Howland
Executive Director

On February 4, 2013, Energy New England, LLC (ENE) filed an application for renewal of its registration as an electric aggregator. ENE was registered as an aggregator in 2009 (DM 09-133). Its registration expired on July 27, 2011 and the renewal application was due 60 days before the expiration date. After discussion with Staff, on April 5, 2013, ENE resubmitted its application for a new registration. In its letter ENE mentioned that during the period between registration expiration and the new application ENE did not actively pursue customers in New Hampshire.

The application has been reviewed and the Company has complied with the requirements of Puc 2003.05. Staff recommends that ENE be registered to provide electric aggregation service in New Hampshire.
