Re: DE 13-062 New Hampshire Electric Cooperative, Inc. Certification Application for Class II Eligibility on Behalf of John David Carmody Pursuant to RSA 362-F

Dear Mr. McNeil:

On February 27, 2013, you submitted an application on behalf of New Hampshire resident John David Carmody (Carmody) requesting that the Commission grant approval of the photovoltaic facility located at his residence to produce Class II, Renewable Energy Certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the Carmody application and has recommended approval of his photovoltaic array as eligible for Class II RECs effective February 27, 2013.

Since this facility is a customer-sited source, the output is not recorded in the New England Power Pool Market Settlement System and, as a result the output must be monitored and verified by an independent monitor. Your application states that NHEC will monitor the facility's output pursuant to N.H. Code of Administrative Rules Puc 2505.09. This facility's total output will also be included in the *NHEC Class II Aggregation's* total output reported to the NEPOOL Generation Information System as approved by the Commission on April 9, 2010. The details for this facility are listed in the following table.

Docket #	Facility Owner	Facility Location	Total MW listed in application (DC Arrays)	Effective Date to Produce RECs	NH Certification Code
DE 13-062	Carmody	Epping	0.0049	02-27-2013	NH-II-13-029

The Commission has determined that NHEC has provided all the information necessary to demonstrate the Carmody facility's eligibility for certification and hereby certifies the Carmody photovoltaic array as eligible for Class II RECs effective February 27, 2013.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland". The signature is fluid and cursive, with a prominent initial "D" and a long, sweeping tail.
