Re: Northern Utilities, Inc. -- Proposed Changes to Financial Hedging Program - Revised Exhibit 1, page 2 of 2

Docket DE 13-119

Dear Secretary Howland:

On April 23, 2013 Northern Utilities, Inc., dba Unitil ("Northern" or the "Company") filed proposed changes to the financial hedging program as approved in Docket DG 09-141. The Company's filing included an Exhibit 1, page 2 of 2, which provided a sample hedging plan under the new proposal for the 2014-15 heating season. The Company recently discovered that the sample hedging plan reflects the purchase of more options contracts than are needed to meet the goals of the program. Attached is a REVISED Exhibit 1, page 2 of 2, which is identical to the original except for a reduction in the number of options contracts from 75 to 54.

As an informational update, on April 25, 2013, the Maine Public Utilities Commission approved the proposed hedging proposal for the Maine Division in Docket No. 2012-448.

Enclosed are an original and six (6) copies of the Company's REVISED Exhibit 1, page 2 of 2.

Thank you for your attention to this matter.

Robert S. Furino
