Re: DE 13-155, Solar Farm Bank, LLC
Certification Request for Class II New Hampshire Renewable Energy Certificate
(REC) Eligibility on Behalf of Steven Scott for Participation in the Solar Farm
Bank Aggregation Pursuant to RSA 362-F

Dear Mr. Hirsh:

On May 22, 2013, Solar Farm Bank submitted an application on behalf of Steven Scott (Scott) requesting Commission approval for Class II New Hampshire REC eligibility for his residential photovoltaic (PV) array pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Certification of this facility will enable Solar Farm Bank to add the Scott facility to its aggregation pursuant to Puc 2506.01 and recognized by the Generation Information System (GIS) under NON 35889.

Staff has reviewed the Scott application and has recommended approval of the Scott PV array as eligible to be aggregated by the Solar Farm Bank for Class II RECs effective May 22, 2013, the date Staff was able to determine that the application was complete.

Since this facility is a customer-sited source, its output is not recorded in the New England Power Pool Market Settlement System and, as a result must be monitored and verified by an independent monitor. The application states that Paul Button, Energy Audits Unlimited, will monitor the facility's output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. Mr. Button will report the facility's total output annually to the customer, the Commission and the NEPOOL Generation Information System as part of the Solar Farm Bank's Class II aggregation pursuant to Puc 2505.09(h)(3).

The details for the Scott facility are listed in the following table.

Commission Assigned Docket #	Facility Owner	Facility Location	Total MW listed in application	Effective Date to Produce RECs	NH Certification Code
DE 13-155	Scott	Portsmouth	0.0058	05-22-13	NH-II-13-049

The Commission has determined that Solar Farm Bank has provided all the information necessary to demonstrate the facility's eligibility for certification and hereby certifies Scott PV array as eligible to be aggregated by the Solar Farm Bank for Class II RECs effective May 22, 2013.

Sincerely,

Debra A. Howland
