Re: Docket 13-171 Sale of Eastman Sewer Company Assets & Liabilities

Dear Debra,

On April 16, 2014 the Eastman Community Association, sole owner of the Eastman Sewer Company, completed the sale of the assets and liabilities of ESC to the Village District of Eastman. This sale was approved by the NH Public Utilities Commission per order #25,634. Since the Village District now owns all ESC assets and is a municipal corporation under RSA 52, it is our understanding the Eastman Sewer Company is relieved of its obligations to provide regulated sewer service within its authorized franchise boundary, effective the date of sale.

For your records, I have included a copy of the primary documents from the sale. Please contact me at 863-4240 or at the address below if you require any further information or documentation to remove the Eastman Sewer Company from your list of regulated utilities.

Thank you Debra.

Respectfully,

Brian Harding
General Manager
Eastman Sewer Company
