*We consider Logan Consulting Services to be an additional member of our senior management team. They have been instrumental in working with us at KAMCO as we developed our long-term strategies and objectives, while continuing to encourage personal development and management accountability. Bob is an excellent facilitator with the ability to challenge management to adopt a "Vision Approach" to the corporate culture.*

-Jim Scaia, President  
Kamco Supply of America

*Bob Logan helped transform a former politician and lawyer into a businessman. He convinced me to trust him and step back from the day to day running of my business, and view it from a distance. He taught me how to plan effectively. Most important of all, he caused me to share control and ownership. As a result I am different and so is my business. Our yearly retreats are effective business therapy, and the strategic planning which has resulted are the most important events that have occurred in our business history.*

-Sam Rotondi, President  
The Law Offices of Sam Rotondi

*Logan Consulting Services provided the Longwood Securities management team a framework for defining measurable corporate objectives while at the same time, structuring individual commitments that result in their accomplishment. Team members are now proactive in focusing on our strategic initiatives and holding their peers accountable for their commitments.*

-John Connelly, President  
Longwood Security Services, Inc.

*We have worked with Bob Logan of Logan Consulting Services on our five-year strategic plan. Bob brings both strong facilitation skills and real world business experience. He is as comfortable (and as effective) analyzing financial statements as he is facilitating a group to work more as a team.*

-Christa Hagearty, President  
Dependable Cleaners

*Bob Logan uniquely balances the need to push the envelope in his coaching of CEOs to higher performance with the equally important role of acting as a sounding board and trusted confidant. He is effective in either a one-on-one setting or in facilitating teams to achieving new levels of insight and performance.*

-Denise Caristi, President  
Granite State Credit Union

*As a member of The Executive Committee (TEC) group, I had the opportunity to work with Bob. His leadership skills, professionalism, and knowledge in the corporate arena were proven superb! Currently, I depend on and value Bob's expertise as a consultant/confidant in my corporate affairs. Again, his work ethic and experience exceed the highest standard.*

-Jim Gorin, President

*Without a doubt, Bob has been the most influential consultant in helping me grow as an executive. He is excellent at what he does.*
