RE: Application Cover Letter - Registration Application for Natural Gas Aggregator

Dear Ms. Howland:

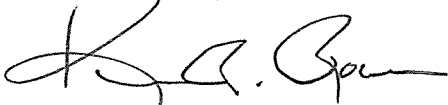

This letter accompanies the enclosed registration to serve as a natural gas supply aggregator in the State of New Hampshire. Please note this request is in addition to our existing authorization as an Electric Supply Aggregator under **DM 10-003 (Technology Resource Solutions, Inc)**.

I founded this company in 2003 and continued leading the business under the ownership of PAETEC Communications Inc. between 2008 – 2012. With my recent reacquisition of the company, there is no change to our original intent to do business in New Hampshire. (Under a separate filing to the NH-PUC, dated 8/2/13, proof of my acquisition of the company was provided.)

The company was among the earliest energy aggregators/brokers in the nation and has established a strong reputation based upon integrity and excellence in providing guidance to commercial and industrial customers in nearly every state where energy deregulation exists.

By way of this request, we hope to enhance our existing authorization from the NH-PUC for electric supply aggregation, to provide comprehensive energy supply guidance to our existing and future customers in the Granite State.

Sincerely yours,

Ken Rowen

President

Technology Resource Solutions, Inc.
