RE: Application Cover Letter - Registration Application for Electric Aggregator

Dear Ms. Howland:

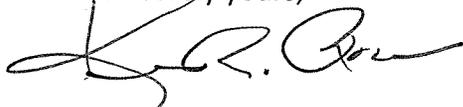

This letter accompanies the enclosed registration to serve as an electric supply aggregator in the State of New Hampshire. We were informed by the Commission that our prior authorization (**DM 10-003 (Technology Resource Solutions, Inc)**) had expired during the prior ownership of the company.

I founded Technology Resource Solutions, Inc. in 2003 and recently reacquired the company from PAETEC Communications Inc. Please find these attached documents as proof of the acquisition of the company: Stock Power letter from the prior owner and a copy of the current stock certificate.

The company was among the earliest energy aggregators/brokers in the nation and has established a strong reputation based upon integrity and excellence in providing guidance to commercial and industrial customers in nearly every state where energy deregulation exists.

Along with our separate application to the Commission for authorization as a natural gas aggregator (should be received by the Commission on 8/7/13), we intend to provide comprehensive energy supply guidance to our future customers in the Granite State.

Sincerely yours,

Ken Rowen
President
Technology Resource Solutions, Inc.
