**THE STATE OF NEW HAMPSHIRE
PUBLIC UTILITIES COMMISSION
IR 13-336
PUBLIC SERVICE COMPANY
OF NEW HAMPSHIRE
Review of Line Extension Policy
ORDER OF NOTICE**

On March 1, 2013, Public Service Company of New Hampshire (PSNH) filed a report on its line extension policy and proposed tariff pages. The filing was made pursuant to a Settlement Agreement approved by the Commission in Order No. 25,046 (November 20, 2009) in Docket DE 08-135. The Settlement Agreement provided that PSNH would phase in over a three-year period new line extension charges based upon a specified cost per foot. The phase-in period ran until March 31, 2013 after which time the Settlement Agreement provided a method for calculating the cost per foot that would apply to line extensions beginning April 1, 2013. Pursuant to the proposed tariff, the cost per foot of single-phase overhead line extensions for effect April 1, 2013 would increase from \$11.40 to \$20.71, and for single-phase underground line extensions, the cost per foot would increase from \$14.71 to \$15.48. The Commission issued Order No. 25,481 (March 28, 2013) suspending the tariff for 3 months to allow further investigation by Staff, and by consent, PSNH later allowed the investigation to continue an additional 5 months through November 28, 2013, whereupon the suspension of the tariff terminates and the tariff takes effect pursuant to RSA 378:6.

Staff filed a memorandum on November 22, 2013 advising the Commission that the proposed tariff rate was calculated in a manner consistent with the terms of the Settlement Agreement and recommended that the Commission approve the tariff. Staff further noted that pursuant to RSA 370:12 which was effective August 17, 2012, a utility customer who requires a line extension on private property may hire a qualified contractor approved by the local distribution utility. Staff recommended that PSNH update its tariff to clearly inform customers of the availability of such an option. Finally, Staff also reported that PSNH, consistent with the
