Re: **Ethical Electric, Inc. Second Response to Deficiency Letter
DM 13-360**

Dear Ms. Howland,

Ethical Electric, Inc. ("Ethical Electric") submitted an application to the Commission for registration as a Competitive Electric Power Supplier (CEPS) on December 26, 2013 and was assigned docket DM 13-360. On January 7, 2014 Public Utility Commission staff issued a Deficiency Letter identifying requirements and related items missing from Ethical Electric's initial application. Ethical Electric provided an initial response to the deficiencies on March 5, 2014. This second response and attachments addresses the entirety of the deficiencies. The following items are included in this submission:

- 1) A revised customer contract reflecting requested amendments from Commission Staff. Please see Attachment A for a copy of Ethical's customer contract.
- 2) A revised bond reflecting changes requested by Commission Staff. This bond is effective through April 15, 2015. To maintain the required security to be a Competitive Supplier in New Hampshire Ethical Electric will continue to renew the bond before expiration. If at any time Ethical Electric does not wish to renew the bond, they will replace the bond with another form of security deemed appropriate by the PUC. Please see Attachment B for Ethical's bond.
- 3) Ethical Electric has completed EDI testing with the New Hampshire Electric Cooperative. Please see Attachment C for a copy of the "Test Acceptance Form" from NHEC.

Please contact the undersigned with any questions or concerns regarding this submission.

Respectfully Submitted,
