Subject: \$50 increase for Liberty and Unitil customers

Dear NH Utilities Commission,

Are you kidding ?

How could you justify approving this ?

That's a 50% increase to my utility bill.

If everyone is doing their job, utility rates change by a few % points annually.

A 50% increase implies mismanagement somewhere.

Where is the price regulation ?

The Mission statement of the NH Utilities Commission includes:

"To ensure that customers of regulated utilities receive safe, adequate and reliable service at just and reasonable rates."

How is an average \$50 increase just for consumers ?

How is a \$50 increase reasonable ??

Please reconsider approval of this increase.
