Re: Application for Certification as REC Eligible Facilities – Solar Farm Bank
DE 14-046 Jon Marquis
DE 14-047 Andre Chaput

Dear Mr. Hirsh:

On February 12, 2014 the Commission received applications from Solar Farm Bank, LLC (SFB) on behalf of Jon Marquis (Marquis), and Andre Chaput (Chaput) requesting Commission approval for New Hampshire Class II Renewable Energy Certificate (REC) eligibility for photovoltaic (PV) arrays pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law.¹ Certification of these facilities will enable SFB to add these facilities to its aggregation pursuant to Puc 2506.01 and recognized by the Generation Information System (GIS) under NON 35889.²

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed application. The above-named facilities are customer-sited sources and meet the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the applications, Staff recommends that the Commission approve the Marquis and Chaput PV arrays as part of the SFB's Class II eligible facilities' aggregation effective February 12, 2014.

Because these facilities are customer-sited sources, their output is not recorded in the ISO New England Market Settlement System and, as a result must be monitored and verified by an independent monitor. The applications state that Paul Button, Energy

¹ Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

² The Commission approved SFB as an aggregator of RECs on February 05, 2013, DE 12-343.

Audits Unlimited, will monitor both of these facilities' output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. Mr. Button will report these facilities' total output quarterly to the Generation Information System and annually to the Commission as part of SFB's Class II aggregation pursuant to Puc 2505.09(h)(3). The GIS facility code assigned to SFB is NON 35889.

The details for these facilities are listed in the following table:

Commission Assigned Docket #	Facility Owner	Facility Location	Total MW listed in application	Effective Date to Produce RECs	NH Certification Code
DE 14-046	Marquis	Conway	0.012	02-12-14	NH-II-14-030
DE 14-047	Chaput	Hillsboro	0.00882	02-12-14	NH-II-14-031

The Commission has determined that the above-named applicants and SFB have provided all the information necessary to demonstrate these facilities' eligibility for REC certification. The Commission hereby certifies the Marquis and Chaput PV arrays as eligible to be aggregated by SFB for Class II RECs, effective as of February 12, 2014.

Sincerely,

Debra A. Howland
Executive Director

Re: Application for Certification as REC Eligible Facilities – Solar Farm Bank
DE 14-046 Jon Marquis
DE 14-047 Andre Chaput

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the following photovoltaic (PV) facilities as part of the Solar Farm Bank aggregation (SFB) effective as of February 14, 2014: Jon Marquis (Marquis), and Andre Chaput (Chaput).

Accordingly, SFB is eligible to be issued Class II RECs, effective as of February 12, 2014, for the above listed PV arrays. The following table summarizes these new additions to SFB, including the New Hampshire Certification Codes. The GIS facility code assigned to SFB is NON 35889.

Commission Assigned Docket #	Facility Owner	Facility Location	Total MW	Effective Date to Produce RECs	NH Certification Code
DE 14-046	Marquis	Conway	0.012	02-12-14	NH-II-14-030
DE 14-047	Chaput	Hillsboro	0.00882	02-12-14	NH-II-14-031

Sincerely,

Debra A. Howland
Executive Director and Secretary
