**Subject:** utility rate hike

i am writting in regards to the rate hike that was approved for electric unitil in nh, this is outrageous that this amount is going to be added to our bill each month, i am tired of paying blood and sweat to the utility company for them make billions of dollars off our backs, this has got to stop, where do you people think we are going to get this money from??? what about the seniors on SS, budgets, the poor, and the rest of us who cannot afford this hike, the so called bid that was excepted from a 3rd party is ridiculous, this is going to cause alot of problems and i will not pay the increase, i CANNOT AFFORD TOO, my wages dont go up, food is sky high, taxes , insurances, this brilliant move by everyone is a disgrace to us hardworking people, i will be a person who will continuously dispute the rate hike, i will fight it. we have no proof that its justifiable , only in your eyes it is, i can speak for alot of people and until this is resolved this will not stop. its un-american to do this to us, find another way without skyrocketing our bills.
