**STATE OF NEW HAMPSHIRE**  
**PUBLIC UTILITIES COMMISSION**  
DW 14-075  
**AQUARIUM WATER COMPANY OF NEW HAMPSHIRE, INC.**  
Verified Petition to Credit Customers for Benefit Arising from Change in Tax Regulations  
Summary of Order nisi No. 25,761  
Affirming Approval of Three-Year Amortization Period and Motion for Protective Order  
February 6, 2015

In Order nisi No. 25,761, the Commission affirmed its approval of Aquarion's three year credit-amortization proposal and motion for protective order. The Commission originally granted this approval in Order nisi No. 25,750 (January 12, 2015), but that order never took effect because Aquarion's failed to satisfy a publication requirement. In July 2014, in Order No. 25,692, the Commission approved the creation of a deferred liability (i.e., a credit) designed to pass an anticipated \$905,000 federal tax benefit through to Aquarion customers. In that order, the Commission also approved Aquarion's proposal to use a portion of the credit to cover the costs of a deferred asset accrued as a result of the Commission's ruling in Docket DW 13-314, relating to Aquarion's 2014 Water Infrastructure and Conservation Adjustment (WICA) surcharge. With regard to the time period over which the remainder of the credit would be applied to customer bills, the Commission deferred consideration "until Aquarion has filed its 2013 tax return and has provided an update to the Commission with the exact amount of the benefits to be received."

On November 13, 2014, Aquarion provided that update to the Commission and filed a motion for protective order and confidential treatment, which sought protection from disclosure of the consolidated 2013 tax returns of Macquarie Utilities, Inc., the indirect parent of Aquarion. In its filing, Aquarion verified that the amount of the credit is \$905,000. To credit its customers that amount, less the portion of the credit used to pay the 2014 WICA costs, Aquarion proposed a three-year amortization period, starting on January 1, 2015. Aquarion's November 2014 filing and other docket filings, except for any information for which confidential treatment is requested or granted by the Commission, are posted to the Commission's website at <http://www.puc.nh.gov/Regulatory/Docketbk/2014/14-075.html>. Commission Staff recommended that the Commission approve the three-year amortization period, as proposed by the Company. Staff noted that the three-year period will result in a 4% credit on customer bills beginning for service rendered on and after January 1, 2015. Staff also supported Aquarion's motion for protective order. Neither the Office of the Consumer Advocate nor the municipalities within which Aquarion provides service responded to Staff's recommendation.

As noted above, by Order nisi No. 25,750 (January 12, 2015), the Commission granted Aquarion's proposal to amortize the balance of the \$905,000 credit (after subtracting the 2014 WICA costs) over a period of three years, starting with service January 1, 2015. The Commission also granted Aquarion's motion for protective order. As a condition for its effectiveness, however, Order nisi No. 25,750 required publication by January 16, 2015. Aquarion did not satisfy that condition, and, by its terms, Order nisi No. 25,750, never became effective.

In Order nisi No. 25,761, the Commission affirmed and incorporated by reference Order nisi No. 25,750. The order establishes new publication and other deadlines, which Aquarion must comply with in order for the order to take effect.

To ensure that all interested parties receive notice of this docket and have an opportunity to request a hearing, the Commission delayed the effectiveness of its approval until March 6, 2015. All persons interested in responding to the Commission's approval may submit their comments or file a written request for a hearing which states the reason and basis for a hearing no later than February 23, 2015. Any party interested in responding to such comments and requests for hearing shall do so no later than March 2, 2015. Following consideration of any comments and requests for hearing received, the Commission may further extend the effective date of its approval. The Commission's approval shall become final and effective March 6, 2015, unless the Commission orders otherwise.

The Commission originally granted this approval in Order nisi No. 25,750 (January 12, 2015), but that order never took effect because Aquarion's failed to satisfy a publication requirement. In July 2014, in Order No. 25,692, the Commission approved the creation of a deferred liability (i.e., a credit) designed to pass an anticipated \$905,000 federal tax benefit through to Aquarion customers. In that order, the Commission also approved Aquarion's proposal to use a portion of the credit to cover the costs of a deferred asset accrued as a result of the Commission's ruling in Docket DW 13-314, relating to Aquarion's 2014 Water Infrastructure and Conservation Adjustment (WICA) surcharge. With regard to the time period over which the remainder of the credit would be applied to customer bills, the Commission deferred consideration "until Aquarion has filed its 2013 tax return and has provided an update to the Commission with the exact amount of the benefits to be received."

On November 13, 2014, Aquarion provided that update to the Commission and filed a motion for protective order and confidential treatment, which sought protection from disclosure of the consolidated 2013 tax returns of Macquarie Utilities, Inc., the indirect parent of Aquarion. In its filing, Aquarion verified that the amount of the credit is \$905,000. To credit its customers that amount, less the portion of the credit used to pay the 2014 WICA costs, Aquarion proposed a three-year amortization period, starting on January 1, 2015. Aquarion's November 2014 filing and other docket filings, except for any information for which confidential treatment is requested or granted by the Commission, are posted to the Commission's website at <http://www.puc.nh.gov/Regulatory/Docketbk/2014/14-075.html>.

Commission Staff recommended that the Commission approve the three-year amortization period, as proposed by the Company. Staff noted that the three-year period will result in a 4% credit on customer bills beginning for service rendered on and after January 1, 2015. Staff also supported Aquarion's motion for protective order. Neither the Office of the Consumer Advocate nor the municipalities within which Aquarion provides service responded to Staff's recommendation.

As noted above, by Order nisi No. 25,750 (January 12, 2015), the Commission granted Aquarion's proposal to amortize the balance of the \$905,000 credit (after subtracting the 2014 WICA costs) over a period of three years, starting with service January 1, 2015. The Commission also granted Aquarion's motion for protective order. As a condition for its effectiveness, however, Order nisi No. 25,750 required publication by January 16, 2015. Aquarion did not satisfy that condition, and, by its terms, Order nisi No. 25,750, never became effective.

In Order nisi No. 25,761, the Commission affirmed and incorporated by reference Order nisi No. 25,750. The order establishes new publication and other deadlines, which Aquarion must comply with in order for the order to take effect.

To ensure that all interested parties receive notice of this docket and have an opportunity to request a hearing, the Commission delayed the effectiveness of its approval until March 6, 2015. All persons interested in responding to the Commission's approval may submit their comments or file a written request for a hearing which states the reason and basis for a hearing no later than February 23, 2015. Any party interested in responding to such comments and requests for hearing shall do so no later than March 2, 2015. Following consideration of any comments and requests for hearing received, the Commission may further extend the effective date of its approval. The Commission's approval shall become final and effective March 6, 2015, unless the Commission orders otherwise.

**PUBLIC UTILITIES COMMISSION**

**AQUARIUM WATER COMPANY OF NEW HAMPSHIRE, INC.**  
**Verified Petition to Credit Customers for Benefit Arising from Change in Tax Regulations**  
**Summary of Order nisi No. 25,761**  
**Affirming Approval of Three-Year Amortization Period and Motion for Protective Order February 6, 2015**

In Order nisi No. 25,761, the Commission affirmed its approval of Aquarion's three year credit-amortization proposal and motion for protective order. The Commission originally granted this approval in Order nisi No. 25,750 (January 12, 2015), but that order never took effect because Aquarion's failed to satisfy a publication requirement. In July 2014, in Order No. 25,692, the Commission approved the creation of a deferred liability (i.e., a credit) designed to pass an anticipated \$905,000 federal tax benefit through to Aquarion customers. In that order, the Commission also approved Aquarion's proposal to use a portion of the credit to cover the costs of a deferred asset accrued as a result of the Commission's ruling in Docket DW 13-314, relating to Aquarion's 2014 Water Infrastructure and Conservation Adjustment (WICA) surcharge. With regard to the time period over which the remainder of the credit would be applied to customer bills, the Commission deferred consideration "until Aquarion has filed its 2013 tax return and has provided an update to the Commission with the exact amount of the benefits to be received."

On November 13, 2014, Aquarion provided that update to the Commission and filed a motion for protective order and confidential treatment, which sought protection from disclosure of the consolidated 2013 tax returns of Macquarie Utilities, Inc., the indirect parent of Aquarion. In its filing, Aquarion verified that the amount of the credit is \$905,000. To credit its customers that amount, less the portion of the credit used to pay the 2014 WICA costs, Aquarion proposed a three-year amortization period, starting on January 1, 2015. Aquarion's November 2014 filing and other docket filings, except for any information for which confidential treatment is requested or granted by the Commission, are posted to the Commission's website at <http://www.puc.nh.gov/Regulatory/Docketbk/2014/14-075.html>.

Commission Staff recommended that the Commission approve the three-year amortization period, as proposed by the Company. Staff noted that the three-year period will result in a 4% credit on customer bills beginning for service rendered on and after January 1, 2015. Staff also supported Aquarion's motion for protective order. Neither the Office of the Consumer Advocate nor the municipalities within which Aquarion provides service responded to Staff's recommendation.

As noted above, by Order nisi No. 25,750 (January 12, 2015), the Commission granted Aquarion's proposal to amortize the balance of the \$905,000 credit (after subtracting the 2014 WICA costs) over a period of three years, starting with service January 1, 2015. The Commission also granted Aquarion's motion for protective order. As a condition for its effectiveness, however, Order nisi No. 25,750 required publication by January 16, 2015. Aquarion did not satisfy that condition, and, by its terms, Order nisi No. 25,750, never became effective.

In Order nisi No. 25,761, the Commission affirmed and incorporated by reference Order nisi No. 25,750. The order establishes new publication and other deadlines, which Aquarion must comply with in order for the order to take effect.

To ensure that all interested parties receive notice of this docket and have an opportunity to request a hearing, the Commission delayed the effectiveness of its approval until March 6, 2015. All persons interested in responding to the Commission's approval may submit their comments or file a written request for a hearing which states the reason and basis for a hearing no later than February 23, 2015. Any party interested in responding to such comments and requests for hearing shall do so no later than March 2, 2015. Following consideration of any comments and requests for hearing received, the Commission may further extend the effective date of its approval. The Commission's approval shall become final and effective March 6, 2015, unless the Commission orders otherwise.
