Re: Application of Accenture LLP to Register as Electric Power Aggregator

Dear Ms. Howland:

Enclosed please find the application of Accenture LLP ("Accenture") to register as an electric power aggregator pursuant to Puc 2003.04. Enclosed please find one signed original application, two copies and one PDF copy of the application package.

Enclosed also please find a check for \$250.00 payable to the State of New Hampshire for the initial application fee.

In December 2013, Accenture acquired Procurian, Inc., a broad-based procurement services company and the parent company of Utilities Analyses, Inc. ("UAI"), an energy services company and holder of an existing New Hampshire electric power aggregator registration. Accenture is integrating the operations of Procurian, including those of UAI, into Accenture's procurement services line of business. Accenture plans to continue and expand the energy services business of UAI under the Accenture name. Once Accenture has received approval to provide electric power aggregation services in New Hampshire, we intend to withdraw the registration of UAI.

Please feel free to contact me if you have any questions regarding the attached application.

Sincerely,

A handwritten signature in blue ink, appearing to read "Stephen D. Spears".
