Re: DE 14-151, Knollwood Energy of MA LLC - Eaton Door and Frame
Application for System Expansion of a REC Eligible Facility

Dear Ms. Lakritz:

On October 20, 2014, the Commission received an application filed by Knollwood Energy of MA, LLC (Knollwood Energy) for Eaton Door and Frame (Eaton Door & Frame). Knollwood Energy is requesting Class II eligibility for Eaton Door & Frame's photovoltaic (PV) array expansion and continued inclusion in the Knollwood Energy aggregation. The Commission previously certified Eaton Door & Frame for a 0.03612 megawatt (MW) PV array effective as of June 4, 2014. The nameplate capacity for the system expansion is 0.018 for a total system nameplate capacity of 0.05412 MW.

The above-named facility is a customer-sited source and meets the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the application, Staff recommends that the Commission certify the Eaton Door & Frame PV system expansion as an eligible facility for Class II RECs to be included as part of the Knollwood aggregation effective as of October 20, 2014.

Because this facility is a customer-sited source, its output is not recorded in the ISO New England Market Settlement System and, as a result must be monitored and verified by an independent monitor. The application lists Thomas Kelly of Natural Capital, LLC as the independent monitor. The independent monitor's responsibility is to verify the facility's output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. Mr. Kelly will report this facility's total output annually to the customer and to the Commission. The monthly output will be reported quarterly to the NEPOOL Generation Information System as part of Knollwood Energy's Class II aggregation pursuant to Puc 2505.09(h)(3).

Details for this facility are listed in the following table:

Docket #	Facility Name	Facility Location	Total MW	Effective Date to Produce Class II RECs	GIS Facility Code	NH Certification Code
DE 14-151	Eaton Door & Frame	Salem	0.05412	06-04-14	NON 40970	NH-II-14-065

The Commission has determined that Knollwood Energy has provided all the information necessary to demonstrate continued eligibility for Eaton Door & Frame's PV array and hereby certifies the Eaton Door & Frame PV system expansion as eligible to be aggregated by Knollwood Energy for Class II RECs effective as of October 20, 2014.

Sincerely,

Debra A. Howland
Executive Director

Re: DE 14-151, Knollwood Energy of MA LLC - Eaton Door and Frame
Application for System Expansion of a REC Eligible Facility

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the expanded Eaton Door and Frame (Eaton Door & Frame) photovoltaic (PV) facility as part of the Knollwood Energy of MA, LLC (Knollwood Energy) aggregation. The Commission previously certified Eaton Door & Frame for a 0.03612 megawatt (MW) PV array effective as of June 4, 2014. The nameplate capacity for the system expansion is 0.018 for a total system nameplate capacity of 0.05412 MW.

Accordingly, Knollwood Energy is eligible to be issued Class II RECs, effective as of October 20, 2014, for the expanded Eaton Door & Frame PV facility. The following table summarizes the new additions to Knollwood Energy's aggregation including the GIS Facility Code and the New Hampshire Certification Code.

Docket #	Facility Name	Facility Location	Total MW	Effective Date to Produce Class II RECs	GIS Facility Code	NH Certification Code
DE 14-151	Eaton Door & Frame	Salem	0.05412	06-04-14	NON 40970	NH-II-14-065

Sincerely,

Debra A. Howland
Executive Director
